Dear Helpdesk,

We have been experiencing problem with TPMS to display list of event in MATRADE's website for 2 days in a row. The page: <http://www.matrade.gov.my/en/malaysian-exporters/services-for-exporters/export-promotion/international-trade-events/135-trade-fair> failed to load list of event. Upon checking by operation team, the server was hanged and needs to be restarted (both server app02 and web02).

Further checking the log, it gives below warning:

```
WARN : org.hibernate.hql.internal.ast.HqlSqlWalker - [DEPRECATION] Encountered positional parameter near line 1, column 108. Positi
